

Claims 1-19 are present in the above-captioned application and have been subjected to restriction under 35 U.S.C. § 121. Specifically, the Official Action avers that the following inventions are present in the claims:

Group I, Claims 1-12, drawn to a medical control device and control method, classified in class 128, subclass 903;

Group II, Claims 13 and 14, drawn to a medical control device, classified in class 607, subclass 30;

Group III, Claims 15-17, drawn to a medical system device, classified in class 607, subclass 59;

Group IV, Claim 18, drawn to a control system, classified in class 607, subclass 31; and

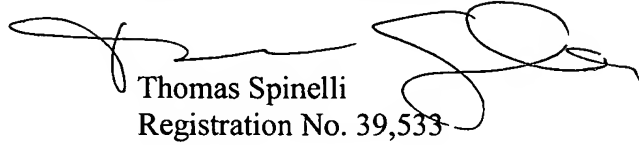

Group V, Claim 19, drawn to a control system, classified in class 607, subclass 60.

It is the Examiner's position that the inventions listed as Groups I, II, III, IV and V are distinct from each other.

In response to the Examiner's requirement for restriction requirement, Applicants elect to prosecute the subject matter of Group I, Claims 1-12. However, Applicant reserves the right under 35 U.S.C. § 121 to file one or more divisional applications directed to the non-elected subject matter in this application.

In view of the foregoing, an examination on the merits of the elected claims, at an early date, is earnestly solicited.

Respectfully submitted,

Thomas Spinelli
